

Exporting a PDF

It is possible to download your design file as a PDF, either to share or to print.

This is done

File > Print.

This will bring up this pop up screen.

- **Scale:** There will be options to edit the scale of the image.
- **Stats** - allows you to edit the text in the lower boxes of the page
- **Layer Options:**
 - Show legend
 - Discrete colors
 - Show satellite imagery - you must first have the satellite imagery selected (found in the Edit Menu) for this option to be available.
- **Logo** - upload your own logo onto the PDF document
